PUBLIC MEETING

Discusses Money By-Laws

The public meeting, held in Rowcliffe's Hall on Monday evening to consider the money by-laws which were voted on yesterday, was attended by about fifty persons. The proceedings were comparatively tame throughout, and those of the audience who expected a "scrap" were disappointed.

Mayor Sutherland took the chair and announced the purpose of the gathering in a few words, closing his remarks by calling upon Ald. Stirling, as chairman of the Finance Committee, to address the meeting.

Ald. Stirling stated that both issues of debentures were to be made for a 25-year term. The issue of \$3,500 for Power House reconstruction would cost \$259.04 per annum for interest and sinking fund, and that of \$10,000 for waterworks extension would cost \$740.11. When the present Council came into office they found an excess of expenditure over income of \$3,444, due to the cost of rebuilding the Power House, destroyed by fire last June, and an accident to the machinery. Last year's Council had laid before the ratepayers a by-law to meet the outlay, but it had been defeated, hence the sum yet remained to be met. The question now was whether it should be paid by means of borrowed money, the loan to be spread over a period of 25 years, or be met out of the rates. It would have to be settled this year, as the Council could not hand it on as a legacy to their successors. If met out of revenue, it would mean that 4 or 5 mills would have to be added to the tax rate. As to the waterworks extension scheme, the Council found it necessary to extend the service in order to make the plant pay, as the present distribution system was small in proportion to the pumping equipment.

The chairman next called upon Ald. Leckie, who said that the Council did not ask leave to spend \$10,000 at once on waterworks extension but only for power to spend up to that amount, if found desirable. The Fire and Light Committee would not spend anything until sure that interest and sinking fund would be met from revenue. Last year, the total revenue from water was \$660. The expenditure was figured out by last year's Council at \$1320, being at the rate of \$110 per month, which he did not consider was quite enough, taking into consideration the share of wages, oil, fuel, &c. properly chargeable to the pumping department, but it was not proposed by the present Council to change the estimate. The revenue was thus just half of the expenditure. It was not proposed to increase the taxes to meet the deficit, but to endeavour to do so by profitable extension of the service. He had advertised for applications from persons desirous of a water supply, but had only obtained seven replies, and the money spent on the advertisements was wasted, yet his committee had decided to go ahead and submit the by-law. The money would

CITY COUNCIL

Regular Meeting

The regular fortnightly meeting of the Council was held on Saturday evening with all the members present.

The following accounts were referred to the Finance Committee and ordered to be paid, if found correct:

Crawford & Co., stationery, Jan. and Feb. \$14.50
C. P. R., freight on metre 6.84
do., freight on casting 5.40
C. Perrin, 9 1/2 hours work on pole line 2.40

Mr. R. H. Parkinson submitted a plan of the foreshore fronting Block 47, Map 462, and it was passed.

Messrs. P. DuMoulin and B. McDonald appeared on behalf of the Agricultural and Trades Association. Mr. DuMoulin acted as spokesman, and said that ex-Mayor Keary, of New Westminster, had offered Kelowna first chance to secure an exhibition game of lacrosse between New Westminster, champions of the world, and St. Paul, champions of the United States. The expenses would probably amount to about \$1,000 for the teams and \$500 for putting the ground in order. The game would take place during the fair, and excursions would be run from a number of points in B. C. and on the prairies, with the possibility that there would be a very large attendance, with consequent benefit to the fair, the town and district, both in a direct way financially and from an advertising point of view. Before going further into the matter the Association would like to ascertain if any assistance would be given by the Council, as if not, they would not go on with the project.

The Mayor said the matter would receive attention at an early date, and with this assurance the deputation withdrew.

On motion of Aids. Stirling and Jones, the salary of City Clerk Dunn was unanimously advanced to \$100 per month, to date from Jan. 1st, 1910. Mr. Dunn briefly returned thanks, and hoped he would always be found doing his duty to the best of his ability.

On motion of Aids. Cox and Jones, it was resolved that the sanitary fees be collected quarterly by the City, and that a rebate of 20 per cent be given for prompt payment.

Ald. Cox, as Building Inspector, expressed his approval of the plans of Mr. S. T. Elliott's new automobile garage on Bernard Ave. and of the implement warehouse of Messrs. Dalgleish & Glenn on Pendozi St., both buildings being of concrete construction and as nearly fire-proof as possible.

Ald. Jones brought up the matter of protecting the boulevards in the city, and the Mayor read an amendment to the Municipal Clauses Act, introduced at last session of the Legislature, bearing on the question.

Ald. Jones suggested that a copy of the Act be obtained, as the necessity for doing something to protect trees was great. On Harvey Ave. delivery wagons had driven over grass and trees, destroying them, and such conduct should be punished.

KELOWNA OUTFITTING STORE
W. B. M. CALDER, Prop.

Mr. F. W. Fraser, on behalf of the Kelowna Canning Co., asked for permission to place a set of scales on the street adjoining their new site at the C. P. R. slip. He also would like to have some grading and gravelling done on the street, and he enquired as to the possibility of obtaining a supply of water from the city system.

The Mayor promised the matters referred to would have due consideration, and Ald. Leckie said information would be given at Monday night's public meeting as to extension of the water service.

Ald. Jones reminded the Council that the City had a lot of surplus bulbs in store at ex-Mayor DeHart's greenhouse, and he would like to know the opinions of his colleagues in regard to their disposal.

The Mayor thought they should be sold, but no definite decision was arrived at.

Ald. Jones also urged that some protection be put round the large flower bed at the Park entrance, as the tulips were coming up. He suggested wire netting as a suitable safeguard against dogs.

On motion of Aids. Cox and Leckie, the Parks Committee was authorized to spend \$50 in connection with the City Park.

Council adjourned until April 9th.

Dr. Miller Coming

There is coming to Kelowna, the noted Eye Specialist, J. F. Miller, who has met with such wonderful success in Vernon, Armstrong and Enderby, relieving hundreds who have been at a loss to know where to go or what to do. He comes highly recommended by the leading newspapers and citizens of our province.

Watch for his testimonials and date of coming in our next issue. -Ad.

B. C. FRUIT LAND PRICES

London, Eng., Financial News, spe-
cial article by T. W. Ford:

Considerable attention has recently
been directed toward fruit growing in
British Columbia, and mention has
from time to time been made regarding
the phenomenal rise in the value of
lands in that part of the empire. Fourteen years ago when I first landed
in western Canada, British Columbia
was a land little known beyond its
great wealth in minerals and timber.
Its rich agricultural slopes and fertile
inland valleys were at that time un-
recognized sources of revenue, awaiting
only settlement and development to
prove their worth. Very slowly this
came about. Nine years ago I, with
other pioneers of the fruit industry,
took up farms in the Kootenay valley
and after only a few years of work
and experiment proved the possibilities
of the soil and the demands of the al-
most boundless market lying immedi-
ately adjacent in the prairies of the
great Canadian west.

Conditions existing in this great area
are such as to preclude the successful
cultivation of fruits, and the ever in-
creasing stream of settlers are there-
fore practically dependent upon the
sunny sides of the Rockies for their
fruit supply. In this connection I may
say that the transportation companies
fully recognize the possibilities of this
growing industry and are by the
steady betterment of their facilities
continually bringing the producer and
the consumer into closer touch. As
the resources of the province and the
possibilities of fruit culture became
more fully recognized so did the value
of the better locations steadily appre-
ciate. Today, choice farm lots are
selling in an entirely unimproved state
at prices ranging from £30 to £40 per
acre, while developed lots of from 10
to 20 acres, with bearing fruit trees,
would command a figure running as
high as £200 per acre and over. Even
these prices compare very favourably
indeed with those existing in the older
sections adjacent—as in the Okana-
gan Valley and the States of Wash-
ington and Oregon.

The question here naturally arises
"How far are these prices justified in
view of the profits to be derived
from the products of the land?" To
come down to figures, from an in-
vestment of £1,000 in a partially im-
proved place in the Kootenay valley
to-day, interest running 10 per cent.,
on the capital can be shown within
a couple of years, and going as high
as 12 and 15 per cent. and over with-
in ten years, or as soon as the stan-
dard trees have reached a state of
full bearing. This is the result of
actual working experience in the dis-
trict I refer to, and the future pro-
mises better things. In addition to
the returns quoted there is also the
question of capital appreciation as a
result of further increase in values,
which will undoubtedly come to pass.
I was glad to hear from the Hon.
J. P. Turner, the agent-general for
British Columbia, when in conversa-
tion with him a few days ago, of the
very fine class of Englishmen who
are being drawn to the industry of
fruit farming in British Columbia.
His remarks coincide entirely with
my own experiences in the Kootenay
valley, where we now have a very
excellent and representative com-
munity engaged in the work.

In addition to the industry of fruit
growing, British Columbia also holds
out great inducements to capital in
her mining, lumbering and fishery re-
sources, and there can be no doubt
that before many years the Pacific
province will have established its
claim as probably the best field for
investment in the world.

WHEN HE SLEPT

Mr. Fisher's "Visit" to Kelowna

It will be remembered that when
the Hon. Sydney Fisher, Dominion
Minister of Agriculture, visited the
Okanagan in August of last year, he
did not favour the district of Kelow-
na with his inspection, preferring the
comfort of his berth to an automobile
journey through the valley to Ver-
non. We commented upon the slight
at the time, and expressed the hope
"that Mr. Burrell will give the Hon.
Mr. Fisher the heckling of his life
next session and probe the depth of
knowledge of Kelowna that he has
acquired from behind the curtains of
his berth." Mr. Burrell took the
matter up on March 17th, during the
debate on the "Insects, Pests and Dis-
eases Act," introduced by Mr. Fisher,
but our member's criticisms of the
Minister's action were too polite and
gentle to merit the title of "heck-
ling," and we would have liked to
see more fire in the attack.

Mr. Burrell also referred to Mr.
Fisher's blunt and undiplomatic re-
ference to the comparative quality
of flavour of Quebec and B. C. ap-
ples, and we quote from "Hansard"
passages referring to both matters.

Mr. BURRELL. I may say that it
is a matter of very much regret to
us that the minister was not able to
visit one or two of our prominent
districts, such as Kelowna, of which
he only got a cursory glimpse, for
reasons which he himself understands.
I regret that all the more, because
at Kelowna we have a large acre-
age under tobacco, and a very inter-
esting tobacco industry there. . . .

By the way, there is one little
touch I would like to give to the
Minister of Agriculture, and I do not
think it will do any harm. I quote
from an horticultural magazine which
has been recently established, the fol-
lowing excerpt from a leading article.

"The 'Star' of December 11, in its
report of a meeting of the Pomolo-
gical and Fruit Growing Society of
the Province of Quebec, held in the
Macdonald College on the 10th ul-
timo, quotes the Hon. Sydney Fisher
as saying that 'the prairies offered a
great market for apples, and British
Columbia was recognizing this. But
the flavour of the British Columbia
apple was not to be compared with
that of the Province of Quebec.'

"Of course it is just possible that
the Minister of Agriculture regards
the British Columbia apple as so
much superior to that of Quebec that
it is not to be considered in the same
class. But considering it was a Que-
bec audience to whom the Minister
was speaking, and that he referred
to British Columbia in the negative
sense we are forced to conclude that
Mr. Fisher, if correctly reported, in-
tended his audience to understand
that in his opinion the British Colum-
bia apple was very inferior to that of
Quebec.

"If one of Mr. Fisher's subordinates
were to commit an indiscretion like
that he would not only be promptly
called to account by the press of the
country who knew better, but in all
probability he would be severely re-
primanded for a breach of etiquette
by the minister himself."

Of course, we have to make allow-
ances for the Minister of Agriculture
giving an ex parte utterance to an au-
dience in his own province, but as a
British Columbian, he cannot expect
me to assent to any such heretical
doctrine as he lays down there. As a
matter of fact, the questions as to the
superiority of fruit are in a sense rather
dependent upon local conditions in
every province, and these local con-
ditions make enormous differences. I
venture to think that I could go into
one province and take certain samples
of fruit and say they were superior to
anything produced in another province,
and similarly in another province, I
could find the same result reversed.
This, of course, depends altogether on
the conditions under which the fruit
was grown. I am very certain, how-
ever, that the Minister of Agriculture
had no ground for making such a
sweeping statement as is attributed to
him here.

MR. BLAIN. Did he say anything
about the Ontario apple?

MR. BURRELL. That was proba-
bly too delicate a question for him to
touch.

MR. FISHER. . . . I will not
delay the House by any reference to my
hon. friend's personal opinions of British
Columbia fruit, and that of Quebec;
but I do not hesitate here, in the face
of my hon. friend and others, to main-
tain the character and quality of the
fruit of the province from which I come.
I consider the apples of Quebec, as far
as quality and flavour are concerned,
to be infinitely superior to anything
produced not only in British Columbia,
but in the whole world.

FOOTBALL

Okanagan Mission Defeats Kelowna

On Friday afternoon in beautiful
weather, the Kelowna and Okanagan
Mission Association football teams
met in battle array in the City Park.
Kelowna opened in possession of the
west end goal, and pressed the Mis-
sionites so strongly for the first ten
minutes that they looked like win-
ners, but when it came to shooting
for goal they were lamentable fail-
ures, and no harm was done. Mission
then came away, but a fast shot went
wide of the Kelowna goal, and play
was again transferred to the other
end, resulting in a lively mix-up in
front of goal, during which it seemed
certain that Kelowna would score,
but they did not seem able to cen-
tre their shots. Mission then pres-
sed, missing twice with good hard
drives for the Kelowna stronghold, one
of which was spoiled by striking a
Mission player's arm. Down the field
the ball travelled again, and Kelow-
na made a hot attack in a mass on
their opponents' goal, the Mission
goal-keeper making an excellent save.
Mission opened the scoring from a
fine centre by Barnaby. Kelowna
speeded up, spurred by the reverse,
and made desperate efforts to equal-
ize, but without avail. Shortly before
half-time one of the Kelowna men
got disabled and was unable to re-
sume play, and for the rest of the
game the side played one man short.

Although handicapped by the short-
age, the Kelowna men pined into the
game with a vim on resumption,
bombarding the Mission goal with a
succession of shots, one of which was
cleverly fished out by the goal-keep-
er. Taking the ball up the field, the
Missionites made the Kelowna goal-
keeper do his duty. The play was dan-
gerous, and Kelowna had a good share
of it, but what looked like an easy
chance to score was spoiled by muf-
fling the ball in the goal-mouth. Fol-
lowing a pretty piece of combined
play the Mission forwards rushed the
ball through for their second goal,
the Kelowna defender weakly pre-
sented his back to the charge! No
further scoring was done, and the
game ended 2-0 in favour of the Mis-
sion.

The Missionites thoroughly deserv-
ed their victory, by their clean com-
bined play, but had the Kelowna for-
wards been anything like as good as
the back division, there might have
been a different tale to tell. Hudson
as usual was invaluable amongst the
backs, his long sure kicking being a
feature of the defence, as well as feed-
ing the forwards, who, however,
made but a poor exhibition, and if
Kelowna is to win a game this sea-
son, the forward line will need either
a lot of strengthening or a great
deal more practice.

The game was refereed by Mr.
Finch, and the linesmen were Mr.
Brooke for Kelowna and Mr. Osborne
for the Mission.

Mr. BURRELL. I cannot allow
that.

Mr. RHODES. What about Nova
Scotia?

MR. FISHER. I am not going to
make an exception of even Nova Scot-
ia. My hon. friend must not ac-
cuse me of having made ad captan-
dum statements to the people of Que-
bec, because when I was in British
Columbia I told the people there that
if they obtained great prizes abroad
for their apples, it was only because
the fruit of Quebec had not been
shown at the same exhibition. I ap-
preciate the quality of the fruit of
British Columbia, I recognize the
great fruit-growing capabilities of
that Province, and I congratulate it
not only on the quality and beauty
of its fruit, but on the fact that in
recent years especially the increase
in fruit-growing in British Columbia
has been enormous, and that its pros-
pects in the future are still brighter.
Under these circumstances I do not
hesitate, while standing up for my
own province, so far as quality is con-
cerned, to recognize the superior pro-
ducing character of the great prov-
ince of British Columbia, in regard to
actual production. My hon. friend
twitted me with not having visited
Kelowna. I could not visit every
place in the province, and the con-
nections were such that I could not
make it convenient to visit Kelowna;
but I can assure my hon. friend and
the people of Kelowna that I have
not forgotten them nor their hospi-
table intentions, nor their great in-
terest in fruit-growing and tobacco-
growing, and I hope very soon to
give evidence of the value I place
on their tobacco-growing work by
aiding it in some substantial way.

Mr. Fisher's remarks on the alleged
superiority of Quebec apples raised a
storm of objection from Nova Scotia
and Ontario members, who each pro-
tested that his own particular con-
stituency raises the best apples in
the world, and the debate became
serio-comic on account of the many
claims and counter-claims preferred.
It closed with Mr. Fisher still unre-
pentant for his rash words.

GILBERT HASSELL,
 Kelowna, B. C.

March 10, 1910.

PUBLIC MEETING

Continued from page 1

not be raised at once, if the issue was authorised, but when needed. The general assessment would be raised this year, which would not mean raising the taxes, but would enable the rate to be lowered. A larger assessment would improve the financial standing of the city, and would mean better borrowing powers, as the total amount that could be borrowed bore a certain fixed proportion to the assessment. No money would be borrowed until the new assessment had been completed. It was proposed to supply water for sprinkling lawns as well as domestic use, and the more water used the better. If the present pump could not supply the demand, another pump could be put in.

The Mayor invited questions from any persons who desired to ask them, and Mr. E. Newby promptly enquired how it was expected that the extension of the water system to sparsely populated sections of the city would pay when the present system in the most thickly settled portion of the town did not do so.

In reply, Ald. Leekie estimated that if as much water was used daily as would be equivalent to the full pumping capacity of the plant for 15 minutes, the system would pay and the cost of the extensions would be money well spent. No money would be spent unless the expenditure would improve present conditions, and the Fire and Light Committee was satisfied that revenue could be obtained to cover interest and sinking fund on the cost of the work and also to help to wipe off the loss on the existing system.

Questioned by ex-Mayor Dellart as to the pipe to be used, Ald. Leekie said it was proposed to use wire-wound wood pipe, which he thought

would last 20 years even with alkali present in the soil. If iron pipe was put in, he did not think interest and provision for sinking fund could be earned on it. In South Vancouver, 50 miles of wire-wound wood pipe was being put in. Wood pipe had been used in Seattle for many years and also in the Boundary country. It was not contemplated to use larger pipe than 8-inch. He quoted Ald. Harvey, as a civil engineer, as being satisfied that wood pipe was the best that could be used next to cast-iron pipe.

Mr. Newby enquired if it was not possible for the wire winding to give way, and if the galvanizing of the wire happened to get knocked off in spots while in transit, would not the alkali attack the parts thus exposed.

Ald. Leekie said that wood pipe had been subjected to many different tests, and likewise the wire, and there seemed to be little danger of injury mentioned by Mr. Newby.

Mr. G. F. B. James asked if water would be supplied to houses on side streets, if a number asked for the service.

Ald. Leekie replied that the service would be extended wherever it would pay, as it was just a matter of revenue. The rate for water had not been decided, but it would probably be per tap according to the size of the house. In exceptional cases where much water was used, possibly a metre would be installed. The first extensions would likely be on Bernard Ave. to Mr. D. Lloyd-Jones' house and on Pendozi St. to that of Mr. T. W. Stirling. Further extensions later would depend entirely on the amount of patronage to be obtained.

Mr. Newby could not see where the revenue would come in, as houses were so scattered on the upper end of Bernard Ave. and Pendozi St. He complained that people on the outskirts of the town paid heavy taxes to meet interest on debentures and got nothing in return. They got no fire or police protection, and only the benefit of the schools. When municipal ownership had first been mooted, the ratepayers were told that the water and light systems would both pay.

Ald. Leekie replied that light plants seldom paid the first year, as people would not put in the light. It could be demonstrated that if fifty people got together and put in electric light, they would get it for nothing at all by reason of the saving on their taxes necessary to wipe out the deficit that would otherwise exist. This statement he modified later to the effect that the light would not

cost them any more than would the use of coal oil. As to the houses being too scattered to permit water service to pay, he said with them even 200 feet apart, as he understood Mr. Newby to say, with service to each house, it would pay and leave \$3.00 to the good per annum on each house supplied.

Mr. Newby retorted that people would not put in electric light owing to the cost of installation and the high rate charged by the city. He quoted the Vernon rate as 15¢ per k.w. hour and downwards according to the quantity used. He wished to ask a question about the \$3,500 issue for Power House reconstruction. At the municipal meeting held before the last civic election Ald. Leekie had taken pride in saying that he had defeated the by-law submitted last year for the same purpose. If it was good to defeat it then, why not now? (Laughter.)

Ald. Leekie said he did not want to rake old matters over again. What was the sense in having a vote on by-laws at all, if people did not have the right to vote as they saw fit? Without going into reasons for his action, he held that it was better that the by-law had been defeated last year than if it had passed. Last spring debentures had been sold at 111, while last fall they fetched only 100.80. This was no reflection on the Council of 1909, but it was the result of market conditions. He was confident that debentures could be sold now at a higher price, and that the city would actually make a saving by not having floated the issue that was voted down. \$3,500 would now pay for what \$4,000 had been asked for then.

Mr. Newby thought Mr. Leekie's ideas should have been followed some years ago instead of selling bonds then at 85.

Mr. L. A. Hayman wanted to know how many houses in his district, Park Ave., would have to agree to take water in order to secure a supply.

Ald. Leekie suggested that Mr. Hayman canvass other householders. He estimated that 8-inch wood pipe could be laid for 75¢ per foot, and even with houses 200 feet apart a revenue of \$15 per house per annum would enable the Council to give water service.

Mr. Newby returned to the charge, this time on the question of fire protection, stating that some time ago he had suggested that the Council should sell the gasoline fire engine and buy two chemical engines, which would give fire protection to the outlying portions of the town. He emphatically described the gasoline engine as no good.

Mayor Sutherland replied that the Council had not yet taken up the matter. He did not agree that the engine was no good, and he claimed that it had rendered useful service on two or three occasions, but the trouble had been that the man who understood its operation had been absent when his services were required, and the machine had been put out of business by excited substitutes, who screwed valves the wrong way. It was costing the City only \$140 per annum for interest and sinking fund.

Mr. Newby repeated his statement that a chemical engine was what was needed.

The Mayor said at one time the City had no fire protection. A public meeting had been held and the people had sanctioned purchase of the engine and had passed the necessary by-law. The Council of that year had gone into the matter thoroughly and had ascertained that 14 or 15 of such engines were in use on the prairies and doing good work. He agreed it might be advisable to sell the engine at the present time, if a good price could be obtained, but it should be remembered that the pump now in use could only throw three 1-inch streams, and in the event of a big fire more water might be needed. The engine could throw two 2-inch streams, which might come in very useful and might save a building worth \$10,000 or \$15,000.

Mr. Dellart suggested that some points might be driven near the School and coupled into one, so that the engine could be hitched on, and the same could be done near Mr. DuMoulin's house.

The Mayor replied that the water system would probably be extended in the neighbourhood of the new school.

With an amusing verbal duel between the Mayor and Mr. Newby, the meeting was then brought to a close.

Mr. Newby asked if the Waterworks Extension By-law did not carry, what then?

The Mayor replied they would sit down and do nothing. (Laughter.)

Mr. Newby retorted with a final sarcastic suggestion that the gasoline engine be displayed in a glass case on the main street, as it was no good for anything else. (Laughter.)

Bubonic plague has appeared in Hawaii, and two white girls, daughters of A. B. Lindsay, postmaster of Honolulu, have died of the disease.

PATRONIZE Home Industry

Having had a large experience in the growing of tobacco leaf we have decided to open a factory at Kelowna for the manufacture of cigars to be made from the leaf grown in the District. There is a large and increasing demand for cigars made from Kelowna tobacco and it is our desire to fulfill this want and this we purpose doing by establishing an up-to-date factory, employing only skilled workmen. Lovers of the weed who purchase our brands may rely on getting a cigar with taste, aroma and fragrance unexcelled in any cigar made. In purchasing our cigars customers will be assured that the tobacco leaf of imported cheaper and inferior grades is not used.

PASSING OF THE HORSE?

A New Garage

When the first motor cars to be used in this district appeared on the country roads a year or so ago there was the usual trouble with horses to whom the sight of autos was a novelty, and protests were frequent from farmers who did not enjoy their favourite nag indulging in a French pirouette upon his hind heels; but the predicted has come to pass, and the majority of horses have become quickly reconciled to the innovation. The result is a change in the feelings entertained by farmers towards motor cars, and some Rumour whispers that it will not be long before several of our prominent fruit-growers will be seen handling the steering-wheel instead of the reins.

Recognising the change in sentiment, Mr. S. T. Elliott has determined to provide for a large demand for automobiles, and has secured the agency for the McLaughlin-Buick car, one of the most popular and reliable of the cars of Canadian manufacture on the market. He has been fortunate in the engagement of Mr. T. Baillie, who has had five years' experience in automobile engineering in the Old Land, as manager of his garage, and in addition to a supply of spare parts and repairs of all descriptions, any necessary mechanical work will be undertaken. To provide quarters for storage and repair work, Mr. Elliott has let a contract to Mr. J. A. Egger for the erection of a concrete building 33x60 feet, two stories high, with concrete floor, which will be ready within the next 30 days, work on it being now actively prosecuted. The garage will be absolutely as fire-proof as it is possible to make it, and owners who put their cars in for storage need have no fear as to their safety. Accommodation for about 18 cars will be provided, and the building will be enlarged by lengthening, should the necessity arise.

A car-load of McLaughlin-Buicks arrived last week, comprising four cars, each one a different line, so as to act as samples of the various models made by the manufacturers. The autos are now on exhibition in Mr. Elliott's implement warehouse, beside the site of the new garage, and are well worth inspection. They include a Model F touring car, seating five; a Model 8 touring car, seating four; a Model 9 tourabout, with detachable tonneau, seating four; and a Model 10 runabout. All the cars are rated at 18-22 horsepower, and possess exceptional hill-climbing abilities, as was demonstrated by the Model 9, which has climbed the famous Sunset Hill to Mr. J. Bowes' rancho without making a stop. Other cars have been up the same hill, but not without assistance either human or equine, and the little No. 9's performance constitutes a record.

The editor of the "Courier" enjoyed a ride on Monday to Benvenuto in the No. 9, guided by Mr. Elliott as chauffeur, and was delighted with the smoothness and quietness of operation of the powerful engine and the lack of vibration, even with the disadvantage of rough roads. The entire power plant has been simplified so that the veriest novice can quickly manipulate it, and with magneto ignition there are no "sparking" troubles, while the speed control is most sensitive and responds instantly to the will of the driver. Mr. Elliott has sales arranged for practically all of the cars, and another car-load is due to arrive in a few days, which will include two combination cars with interchangeable back seat and delivery body, making a very desirable vehicle for light delivery and for use by farmers in bringing to town small fruits and other tender products requiring careful handling. Yet another car-load will arrive later, containing large touring cars.

Behold! The day of the motor-car is at hand in this valley, and an epidemic of motorists will spread among the farming community as soon as the handiness, reliability and cheapness of operation of a good car becomes apparent. And the advent of automobiles may bring benefits in its train even to the conservative lovers of the horse, as multiplication of cars will undoubtedly lead to a movement for better roads.

Produce For Hospital

We are asked by the Secretary of the Hospital to state that donations of vegetables, fruit, dairy produce, eggs, etc., will be gratefully received at the Hospital. If more convenient any contributions may be left at the shop of the D. W. Crowley Co., Ltd.

ECHOES FROM THE HILLS

The Paradox

By J. Walker.

Man is a paradox! A cross-grained piece of "timber." He wastes years in living Yet dies in half a shake. He's a "knotty" combination, A tremendous tough creation. He doesn't "pine" to give things, But he's "spruce" when on the make. Oh! it's really most amazing, When it's time for "blazing," How he "planks" down every bit of wit His "bark" for Heaven to fit, And when the life's levanted, That's just the time he's "planted"—Planted in an earthly bed And sleeps, yet "lives," 'tis said. Planted in a narrow box— The paradox of "planting" timber—dead.

Kelowna, January, 1910.

Hospital Insurance

The Kelowna Hospital Society have an insurance in force which they wish to bring to the notice of the public. For the sum of \$10.00, bachelors or married men may obtain a Hospital Insurance Ticket which entitles the holder to free Hospital attendance for one year from date of issue, for any sicknesses or accidents, except contagious or infectious diseases which are not admitted to the Hospital. Applications for tickets or for further information should be made to—

The Secretary,
P.O. Box 69, or Room 4, Keller Block,
Kelowna, B. C.

WATER NOTICE

Notice is hereby given that application will be made under Part V. of the "Water Act, 1909," to obtain a licence in the Osoyoos Division of Yale District.

a.—The name, address and occupation of the applicant—Peter Archibald Sinclair, Farmer, Greenway, M.B.
b.—The name of the lake, stream or source (if unnamed, the description is)—Big Horn Creek, a branch of Bear Creek, Okanagan Lake.
c.—The point of diversion is—the source of Big Horn Creek.
d.—The quantity of water applied for (in cubic feet per second).—one foot and a half.
e.—The character of the proposed works—bed of creek, dam, ditch and flume.
f.—The premises on which the water is to be used (describe same).—Lot 3857, Group 1, Osoyoos Division of Yale District.
g.—The purposes for which the water is to be used—irrigation and domestic.

h.—If for irrigation, describe the land intended to be irrigated, giving acreage—Lot 3857 aforesaid, consisting of 160 acres, all arable.

j.—Area of Crown land intended to be occupied by the proposed works, one mile by ten feet.

k.—This notice was posted on the 17th day of March, 1910, and application will be made to the Commissioner on the 26th day of April, 1910.

l.—Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet—T. A. Wood, John M. Fraser, W. A. Donald, Oliver Hunter, James Simmons, James Carson, Jeremiah Vacher.

Local and Personal News

Remember! The Firemen's Ball is
tomorrow night.

Mr. O. S. Jones was a visitor to
Vernon yesterday.

Mr. W. T. Ashbridge paid a visit
to Vernon on Tuesday.

Mr. J. Gibb paid a visit to Arm-
strong on Saturday.

Mr. and Mrs. C. R. D. Giesmon
left on Friday for England.

Mr. W. Goodwin left on Monday to
pay a business visit to Viking, Al-
berta.

Mr. T. Leader returned on Friday
from a winter's holiday in the Old
Country.

The Royal Templars meet every
Thursday night in Lequime's Hall—
Con.

Messrs. J. W. Wilks and T. Shankie
went to Pentiction on Monday to play
at the Fire Brigade Ball.

Mrs. Lindsay and family left on
Tuesday for Lethbridge, Alta., where
they will reside in future.

Mr. C. G. Mair left on Saturday
for Winnipeg, where he has accepted
a position in the Traders' Bank.

Miss McNaughton and Mr. J. Kin-
caid left on Saturday to attend the
Provincial School Teachers' Con-
vention at Nelson.

Mr. J. B. Knowles moved his Jew-
ellery stock this week from his old
stand to his new quarters recently
purchased from Dr. Boyce.

"Punch" Hunter, who suffered a
severe attack of pleurisy and pneu-
monia last week, is now rapidly pro-
gressing towards recovery.

Next Thursday, April 7th, will be
the first weekly half-holiday of the
season, and our country readers are
reminded of the event lest they be
disappointed in shopping.

Mrs. Thos. Lawson gave an inter-
esting account of her trip to Hono-
lulu, on Monday night, at the meet-
ing of the Young People's Society in
connection with Knox Church. There
was a large attendance.

Good Friday was accompanied by
glorious weather, and many town re-
sidents betook themselves to the
country for the day, while others en-
joyed the pleasures of boating on the
lake. A number held a picnic at
Crawford's Falls.

The appointment has been gazet-
ted of Dr. B. F. Boyce as Police Ma-
gistrate for the City of Kelowna and
to have jurisdiction under the "Small
Debts Act" for the City of Kelowna
and within a radius of fifteen miles
thereof, in place of Mr. J. F. Burne,
resigned.

A local syndicate headed by Dr. S.
C. Richards has secured what is claim-
ed to be the best stallion that has
ever been brought into the Okanagan.
The animal is a Clyde, and has been
purchased from R. H. Taber, of Regi-
na. He is stated to have won more
prizes than any horse in the West.
It is expected that he will arrive
here about the end of this week.

The date of the "Mikado," to be
produced by the Kelowna Musical &
Dramatic Society, has been fixed for
Wednesday and Thursday, April 20th
and 21st. It is proposed to play in
Vernon on Thursday, April 28th, and
a special excursion will be organized
for the occasion by one of the steam-
ers, with a low return rate.

The Police Commissioners met on
Thursday last, and from a short list
of nine, picked out of a large number
of applicants, they appointed Mr. Ro-
bert Golightly, of Bridgewater, N.S.,
as City Constable at a salary of \$70
per month. Notice of his appoint-
ment was immediately wired him, and
he arrived on Tuesday, accompanied
by his son, to take up his duties. He
is an Englishman, stands 5ft. 10ins.,
weighs 204 lbs., and is 40 years of
age. He has had 10 years' police
experience, including 11 in England,
2 years at Bridgewater, and 2½ years
as provincial detective at Fort Wil-
liam, Ont. He possesses a good con-
duct discharge from the British police
force on which he was employed, and
has excellent credentials and testi-
monials from Fort William and
Bridgewater.

Mr. Alf. McLellan returned to Ver-
non on Tuesday.

Miss K. F. Wade, of Armstrong,
spent Easter tide with her sister,
Mrs. W. Fraser.

Mr. and Mrs. A. Marks and family
left yesterday for the Coast, where
they may take up their permanent
residence.

The Annual District Meeting of the
Methodist churches of the Okanagan
District will be held in Kelowna on
May 3rd and 4th.

Rev. S. J. Thompson will preach at
both services in the Methodist church
next Sunday. A cordial welcome to
strangers and visitors.—Con.

Mr. Alex. McLennan, of Kelowna,
has been gazetted as a Commissioner
for Taking Affidavits in the Supreme
Court, for the purposes of the "Pro-
vincial Elections Act."

Mr. R. H. Spedding came in from
Vancouver on Friday to transact
some business in connection with his
property on Bernard Ave. He left for
Pentiction yesterday morning and
from thence will return to the Coast.

The Okanagan Polo Club ball on
Monday night was attended by about
120 people, who had a very enjoya-
ble time to the music of an orches-
tra of five pieces, and dancing was
kept up well into the morning.

Rev. Jas. Slimmon, missionary on
furlough from Honan, China, will
give an address on "Missions to Chi-
na" next Monday night, under the
auspices of the Young People's So-
ciety of Knox Church.

KELOWNA RIFLEMEN Re-Organise For The Season

The annual general meeting of the
Kelowna Civilian Rifle Association on
Saturday afternoon. There was a small
but enthusiastic attendance, with Mr.
G. C. Rose in the chair.

The secretary, Mr. N. Ellison, read
the financial statement, which, ever-
thing considered, was fairly satis-
factory in spite of a few unpaid sub-
scriptions.

The project of a branch range on
Mission Creek was discussed at some
length, being strongly supported by
the K. L. O. Bench members, who
find it practically impossible to come
down town on Thursdays for prac-
tice, and it was resolved to go ahead
with the scheme, if the requisite land
can be obtained. The site projected
for the new range will afford an op-
portunity not before enjoyed by Ke-
lowna riflemen of practicing at 800,
900 and 1,000 yards, besides the stand-
ard distances of 200, 500 and 600
yards. Absence heretofore of the long
ranges has proved a serious handicap
to Kelowna shots in the past when
firing in competitions at outside
points, and in view of a team match
and several individual competitions at
these distances being included in the
events of the Okanagan Rifle Associ-
ation meet at Armstrong in June, it
is essential that an opportunity be
given local men to learn the art of
shooting at long range. A number of
residents on the K. L. O. Bench who
are interested in rifle shooting have
promised to join the Association, if
a local range in that district can be
secured. Hitherto, the interest taken
in the sport by town residents has
been somewhat feeble and spasmodic,
and it is hoped that the infusion of
fresh blood will enable the Kelowna
Association to hold its own with other
parts of the Okanagan Valley, in
which the manly sport has taken a
firm hold. The establishment of the
branch range will in no way inter-
fere with Thursday practices on the
Kelowna range near town.

In electing officers for the year,
they were apportioned between the
Bench and the town, so that in mat-
ters concerning local practices the
Bench members of the committee can
act without having to consult the
town members. The following offi-
cers were chosen: Pres., Mayor Suth-
erland; Vice-Presidents, J. Bowes, J.
F. Burne, W. R. Pooley, G. L. Allan;
Sec., N. Ellison; Assistant Sec. for
Bench, H. B. Lloyd; Captain, G. C.
Rose; Vice-Captain, D. D. Lloyd; Com-
mittee—C. Harvey, C. H. James, J.
N. Cameron, N. B. Lloyd, S. L. Long,
C. K. L. Pyman.

BUSINESS LOCALS

Dr. Mathison, dentist, telephone 89.
Campbell's Varnish Stains are sci-
entifically prepared from soluble col-
ours, combined with the toughest
hard gum floor varnish in such a way
that this stain works like a trans-
parent lacquer. Nothing like it for
use on Floors, Furniture and Interior
Woodwork. Very durable. Stains
and varnishes at one operation. D.
Leckie sells it.

EXPERIMENTAL STATION For The Dry Belt

Little has been heard lately of the
establishment of an experimental
station in the semi-arid belt of Brit-
ish Columbia, and the following ex-
tract from "Hansard" shows that no
decision will be announced for some
time yet.

Mr. BURRELL. What steps has
the minister taken in regard to an
experimental station in the semi-arid
belt of British Columbia? The state-
ment made by the minister on a pre-
vious occasion led the people to hope
that a station would be established
there this year. Many requests have
been made for the establishment of
such a station. I should like very
much to have a statement from the
minister, and of a favourable char-
acter.

Mr. FISHER. I am pushing that
as rapidly as possible. I have been
waiting for some little information
which I would not like to announce
at present, as to a particular site. I
have had careful examination made
of a number of sites, and have gone
over the report of the officer who ex-
amined them. In view of this, and
some information that I acquired
when in that country, I hope before
the end of this year, that the matter
will be settled. I had not intended
to go into it on this item; perhaps
it would be better to leave a fuller
explanation until the main estimates
are before the committee.

MONEY BY-LAWS

Both Carried

The Power House Reconstruction
By-Law and the Waterworks Exten-
sion By-Law, on which a vote was
taken yesterday, both carried, the
former by 7 votes over and above
the necessary three-fifths and the
latter by 16 votes over that propor-

tion. Only a moderate-sized vote
was polled, the total of 116 being
three less than when the Power House
Reconstruction By-Law was defeated
last fall by an adverse vote of 87 to
32. The figures were as follows:
By-Law No. 71—Power House Re-
construction.

For 77
Against 39

Majority 38

Necessary for passage, 70 (three-
fifths of 116); net majority, 7.

By-Law No. 72—Waterworks Exten-
sion.

For 36
Against 26

Majority 10

Spoiled ballots, 4; necessary for pas-
sage, 70; net majority, 16.

Polling took place in the Council
Chamber from 9 a.m. until 7 p.m.,
with Mr. G. H. Dunn as Returning
Officer and Mr. G. A. Fisher, Poll
Clerk.

That certain companies are offer-
ing questionable values in Coast real
estate to the outside investor is more
than borne out by the fact that a
meeting of the responsible realty
firms of Vancouver was held a few
days ago to deal with the matter,
at which the following resolution was
adopted for the protection of inves-
tors: "That we deprecate some of the
advertising methods employed by a-
gents in placing before the public lots
and subdivisions especially appealing
to the small investor and outside pub-
lic, under the guise of large profits
and quick returns, which cannot in
the opinion of this meeting be real-
ized, and we would recommend out-
side investors to make inquiries from
recognised financial or banking in-
stitutions as to bona fides and ap-
proximate values before purchasing
from canvassers or circulars.

NEWS OF THE PROVINCE

Nakusp is the latest place to organize a fruit show.

Native mercury is reported to have been discovered at Field by G. B. Flint, late manager of the C. P. R. hotel at that place.

Hamilton, the aviator, gave an exhibition in Vancouver last week, making successful flights before over four thousand people. On one of his flights he went as far as New Westminster, doing the double journey in 25 minutes.

W. R. Hancock has returned to Summerland and has accepted a position as book-keeper with Messrs. Vaughan and Moore. It is good to see Ray back again and in good shape to occupy the box as soon as the baseball season starts.—Review.

It is reported that the C. P. R. construction gang is at work at the Landing, on the new steamboat for the Southern Okanagan. When they complete their labours they will probably come to Summerland to start on the construction of the proposed new wharves and slips.—Review.

Almost every district in the Province that can lay claim to be a fruit growing centre to any extent, that has not been selected as the location for one of the first of the model orchards, is raising a howl, and resolutions have been passed and wired hot haste to Victoria.

A real estate agent named Cannon has been arrested at Farnie on a charge of selling misrepresented property. Cannon is said to have been disposing of bare mountains that wouldn't raise goats, as choice fruit land.

G. J. Fraser, of Kelowna, who will have charge of the local cannery during the coming season, was in town this week, says the Penticton Press, arranging details. Everything points to a successful season, provided the farmers grow the tomatoes and beans which it is purposed to can this year.

Real estate is humming. We are informed that a man came in on the boat Monday night, looked around by moonlight, bought property and went out again by the boat on the following morning. Had he seen the row by daylight, he would have bought the whole business.—Penticton Press.

Lost in the bush and frozen to death but a short distance from a human habitation, was the fate of an electrical lineman named C. Davis or C. B. Stafford, who set out from Salmo for the Mother Lode mine last week. The body was discovered after a 28-hour search. He was a total stranger in the district.

A young man worked a fake concert in aid of a non-existent athletic club upon about sixty Vancouverites last week. When those who had purchased tickets gathered at the hall, after waiting for about an hour for the entertainment to commence, they came to the conclusion that they had been stung. The vendor of the little pieces of pasteboard has not been located as yet.

The city authorities of Kamloops will forthwith introduce a by-law to deal with the serious situation in regard to consumptives who have flocked to that city in great numbers, attracted by the favourable climate. The by-law will provide for the quarantining of all hotels, boarding houses and lodging houses, where there are consumptive boarders or roomers. It will not, however, apply to bona-fide residents.

Shortly after one o'clock on Sunday morning last the Alkazar Hotel at Keremeos station was destroyed by fire, the inmates barely having time to get out with their lives. The total loss is placed at \$5,000, with insurance of between \$2,000 and \$3,000. The fire started in an unoccupied room over the bar, through the floor of which ran a stovepipe to the chimney above; but it is not known how it started, particularly as there had been no fire in the stove for hours, says the Hedley Gazette.

Ellen Dechamps, a well-known and highly respected resident of Quenelle, was drowned at the Ferry Crossing on Monday last, and at the same time three others narrowly escaped a similar fate. The three last had crossed the Fraser in a canoe, and on reaching the other side one of them stood up to throw a line to Dechamps, who was standing on the ice awaiting them. In throwing the line the man lost his balance and overturned the canoe. One of them jumped and reached the ice, but the other two were thrown in the water. Dechamps made a grab for the canoe line, but the ice gave way under him and he was precipitated into the water and was carried under the ice by the current. The other two, getting hold of the canoe, drifted down stream, and were rescued later.

J. W. Milligan has purchased the Victoria Hotel, Vernon, and is making considerable improvements.

The C. P. R. will inaugurate a daily service on its Nicola branch on April 1st, instead of the present one of three times a week.

Steps are being taken looking towards the establishment of a flour mill at Nelson for the milling of Alberta wheat.

The suggestion is made by the Okanagan Centre correspondent to the Vernon News that a yacht club be formed by residents on either side of the lake north of Kelowna.

The crew of a 60-ft. gasoline freighter were drowned off the entrance to the Fraser river on Wednesday night, the vessel foundering in the tide-rips and heavy sea that was running at the time.

An analysis of the water from Okanagan Landing was received last week from the government analyst by Dr. Morris. It is stated that the water taken from the wharf was absolutely unfit for use, and a sample taken 100 yards from shore was not a great deal better.—Vernon News.

It is to be noted that the towns north of the lake in the Okanagan observe Wednesday afternoon as a half-holiday, while those bordering on the lake prefer Thursday afternoon. For the encouragement of inter-town sports, it seems a pity that the entire district from Enderby to Penticton cannot seek their recreation on the same afternoon of the week.

An important change in the public school machinery has been made by the council of public instruction, which has decided that examinations for entrance to provincial high schools shall be held annually hereafter, instead of semi-annually as in the past. The first of these annual entrance examinations will be held on the last three days of June in the present year.

A shocking accident took place at Revelstoke on Monday, when three men were crushed to death by falling rocks. The men were engaged in blasting operations at the new city waterworks dam, when a huge mass of rock, loosened by a previous blast, broke off above their heads, taking them with it into the bed of the stream below.

When No. 97 was within about three miles of Kamloops on Tuesday night last week, the engineer discovered that there were a number of ties lying across the rails. As it was impossible to pull up in time, he went on, and the engine swept them out of the way without suffering any damage and without leaving the rails. How they got there or who put them there is a mystery, but the police are endeavouring to unravel the mystery.

A coroner's jury at Creston, investigating the accident by which two trainmen lost their lives last week on the Canadian Pacific Railway at McNeillie siding, found that the derailment of the train was due to sand, mud and gravel, spilled on the rails and carelessly left there by the company's employees through their negligence; and also that "this section of the road, being known to be particularly dangerous, sufficient watchmen were not employed to keep the track in safe condition." The engineer of the wrecked train died later in Cranbrook hospital.

In discussing the details of the public works expenditures to be undertaken this year by the Provincial authorities, the Victoria Colonist says that \$14,985 will be expended in the Kelowna district, which is the highest appropriation but one, being topped by that for the Rainbow section, which is allotted the large amount of \$19,770. Of the other districts, Naramata has \$5,600, Summerland, \$3,400; Peachland, \$5,700; Westbank, \$6,030; Big Horn section, \$5,940; Whitman section, \$7,020; Cherry Creek section, \$6,900; Mabel Lake section, \$4,500; Shuswap section, \$6,300; Lumby, \$5,502; Vernon, \$6,357; Enderby, \$9,645; Mara, \$2,220; Salmon Arm section, \$2,190.

Hon. W. Templeman, Dominion Minister of Mines, has rendered splendid service to the mining industry of British Columbia by securing a vote of \$50,000 for investigating the process used in the production of zinc, and zinc products for Canadian ores. At present many thousands of dollars are lost annually to Canada through unscientific and inadequate methods of treating zinc ores, especially in British Columbia. The Mines department of the government proposes to undertake experiments and gather information from abroad with a view to improving the present processes and preventing the great waste now prevailing in the treatment of ores. A smelter will be erected at Nelson.

NEWS OF THE DOMINION

Owing to ill-health, it is rumored that Premier Roblin of Manitoba will retire, and that Hon. R. Rogers is to be his successor.

After sweltering in midsummer heat for several days, the prairies experienced a return of winter on March 24th the temperature dropping 50 degrees in 15 hours, accompanied by a snowstorm.

After being practically run out of Calgary, R.C. Edwards, of Eye-Opener fame, has been arrested in Winnipeg on a charge of publishing obscene literature and was later released upon bail of \$1,000.

The home of the St. Charles Country Club, Winnipeg, has been destroyed by fire. The total damage to the building and furniture is estimated at \$40,000. The cause of the conflagration is a mystery, and the magnificent club house is now a pile of debris.

To memorise during the ensuing year between seven and eight hundred Biblical verses, and a score or more of Christian hymns, is the project launched by the Baptist Sunday schools of Ontario and Quebec, at the annual convocation of the Board held in Toronto.

Kyffing Thomas, of London, England, reporting on the South Australian government fruit trade and other questions, advises the appointment of a trade representative in Western Canada with the object of developing such trade. He is much impressed with the possibilities.

A remarkable conspiracy to defraud the Ontario government came to light last week at Fort Francis, Ont., when a number of men were charged with obtaining large sums of money in connection with the wolf bounty. The accused obtained skins from two Winnipeg fur dealers, on which they claimed and received the Ontario government's bounty of \$15 each; after securing the money, the skins were returned to the dealers, for the use of which \$1.00 each was paid. Sentences ranging from two years to three months, and in some cases a fine of \$150, or a further term of nine months, were imposed.

NEWS OF THE WORLD

Halley's comet, we are told, can now be seen with the aid of an ordinary field glass on nights when conditions are favourable. The comet is at present in the twilight region, and is in line with the sun, its brightness being dimmed by the latter.

Newcastle have once again forced their way into the final of the English Football Cup Competition, winning from Swindon by two goals to 0; but Barnsley and Everton will have to play again, the match ending in a pointless draw. Barnsley's strong game was a great surprise.

Mount Aetna, Island of Sicily, Italy, has been in eruption, and a great river of lava that flowed down the mountain side has brought death and destruction and desolation in the invaded territory. Plants, trees and whole vineyards have been destroyed by the consuming flood, which, on March 25, extended nine miles from its source.

Upon landing at New York, Sir Ernest Shackleton, of furthest south fame, said he would not plan an expedition to the South Pole until the result of that under Capt. Scott became known. He will, however, if possible, go into the Antarctic regions next year on a scientific expedition for coast and geological surveys. In the course of his address in Washington, the explorer said that if he had 50 pounds more of solid food he could have reached the South Pole.

Oxford lowered the Cambridge colours on March 23 in the annual boat-race between the two universities, winning by 2½ lengths. Oxford made the distance in 20 minutes and 14 seconds, which is 27 seconds behind the record. After the first mile the result of the race was never in doubt. During the first mile the Cambridge crew led by a quarter of a length. Cambridge chose the Middlesex side of the river, Oxford having the Surrey side. Several of the Light Blues were all in at the finish, but Oxford finished strong.

All existing difficulties between the 32,000 locomotive firemen, members of the Brotherhood of Railroad Firemen and Engineers, and 49 western railroads, have been wiped off the slate, says a Chicago despatch. The settlement terms in brief are: The demand of the firemen for an increase in wages will be arbitrated; the settlement of the two rules over which there was some dispute will be settled in a way satisfactory to both men and railroads—these rules embrace the subjects of seniority and representation. Both men and general managers seem well satisfied with the turn matters in dispute have taken.

THE PEOPLE'S STORE

SPLENDID DISPLAY OF
NEW DRESS GOODS

In all the fashionable shades, at most reasonable prices, from 25c. to \$3.00 per yard. New Muslins, Crepe Silk Muslins, Gingham, Drills, Linens, etc.
